

Morgan Lumber Company

Forestry and forest products is the third largest business entity in Virginia, contributing \$21 billion dollars annually to our state's economy. The industry employs 108,000 people. It is the most prominent business in southern Virginia. The most important aspect is our contribution to the environment. Our industry plants seven trees for every one harvested. There is more volume of trees in Virginia today than 100 year prior. Trees are carbon factories and store the carbon. A young growing forest absorbs more carbon from the air than a mature forest and different age forests are a compliment to wildlife. It is my commitment to focus on continuing to bring talented and committed young leaders with integrity into our industry and consequently, grow its quality and important. This is why Morgan Lumber Company would like to dedicate two, \$1,000 scholarships to students who wish to pursue a career in the forestry industry beginning fall of 2022.
